FUND SUMMARY – Applied Finance Valuation Large Cap ETF

Investment Objective

The Applied Finance Valuation Large Cap ETF (the "Fund") seeks long-term capital appreciation.

Fees and Expenses of the Fund

This table describes the fees and expenses that you may pay if you buy, hold and sell shares of the Fund. **You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the tables and examples below.**

Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)	
Management Fee[(1)]	0.49%
Other Expenses	None
Total Annual Fund Operating Expenses	0.49%

(1) Under the Investment Advisory Agreement, Applied Finance Advisors, LLC (the "Adviser"), at its own expense and without reimbursement from the Fund, pays all of the expenses of the Fund, excluding the advisory fees, interest expenses, taxes, acquired fund fees and expenses, brokerage commissions and any other portfolio transaction related expenses and fees arising out of transactions effected on behalf of the Fund, credit facility fees and expenses, including interest expenses, and litigation and indemnification expenses and other extraordinary expenses not incurred in the ordinary course of the Fund's business.

Example

This example is intended to help you compare the cost of investing in the Fund with the cost of investing in other funds. The example assumes that you invest $10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

Name of Fund	1 Year	3 Years	5 Years	10 Years
Applied Finance Valuation Large Cap ETF	$50	$157	$274	$616

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the example, affect the Fund's performance. For the Fund's most recent fiscal year ended December 31, 2025, the Fund's portfolio turnover rate was 23.56% of the average value of its portfolio.

Principal Investment Strategies

Under normal circumstances, the Fund will invest at least 80% of its net assets in equity securities of large cap companies. The Fund defines large cap companies as companies with market capitalizations of $5 billion or more, measured at the time of purchase. In choosing investments, the Adviser typically selects large cap equity securities that it believes offer superior return potential and may consider, among other factors, a company's valuation, projected future earnings, dividends, financing activity, growth potential, recent performance, and business strategy. To select securities for the Fund, the Adviser utilizes its proprietary research and valuation models that employ the factors described above to identify appropriate securities for the Fund.

The Advisor incorporates its Intrinsic Value Stewardship ("IVS") analytical model as part of its investment process to understand a company's attractiveness for possible investment. Intrinsic Value is derived from the Adviser's proprietary valuation process that considers, among other factors, a company's profitability, competition, growth rate and cost of capital. Stewardship reflects how a firm utilizes its capital and considers, among other factors, a company's profitability, cost of capital, and financing activities.

The Fund is actively managed and does not seek to replicate an index. The Adviser anticipates generally holding at least 200 different positions in the Fund's portfolio. Although the Fund generally holds at least 200 different positions across a broad spectrum of sectors, it may at times take larger positions (greater than 5%) in certain holdings and/or sectors when its research and valuation models indicate that such investments are appropriate. As a result, the Fund will operate as a "non-diversified" fund, which means it can invest in fewer securities at any one time than a diversified fund.

The Fund may also invest in small and mid-cap companies, convertible securities, preferred stocks, rights and warrants.

The Adviser will typically sell a company from the Fund's portfolio when the Adviser believes it no longer offers superior investment potential. The Adviser may also sell positions that have grown too large relative to the overall portfolio. The Fund's investments will be the responsibility of the Adviser and the Fund's sub-adviser, Tidal Investments, LLC (the "Sub-Adviser").

Principal Risks

As with all funds, a shareholder is subject to the risk that his or her investment could lose money. The principal risks affecting shareholders' investments in the Fund are set forth below. An investment in the Fund is not a bank deposit and is not insured or guaranteed by the FDIC or any government agency.

Equity Securities Risk. Since it purchases equity securities, the Fund is subject to the risk that stock prices will fall over short or extended periods of time. Historically, the equity markets have moved in cycles, and the value of the Fund's equity securities may fluctuate from day to day. Individual companies may report poor results or be negatively affected by industry and/or economic trends and developments. The prices of securities issued by such companies may suffer a decline in response. These factors contribute to price volatility, which is a principal risk of investing in the Fund.

Market Risk. The value of securities in the Fund's overall portfolio will fluctuate and, as a result, the Fund's share price may decline suddenly or over a sustained period.

Management Risk. The strategies used by the Adviser may fail to produce the intended result.

Large Cap Risk. Larger, more established companies may be unable to attain the high growth rates of successful, smaller companies during periods of economic expansion.

Risks of Investment Selection. The Fund's investment success depends on the skill of the Adviser in evaluating, selecting, and monitoring the portfolio assets. If the Adviser's conclusions about growth rates or securities values are incorrect, the Fund may not perform as anticipated.

Risk of Other Equity Securities. Other equity securities in which the Fund may invest include convertible securities, preferred securities, rights and warrants.

Convertible Securities. Convertible securities are subject to the risks and price fluctuations of the underlying stock. They may be subject to the risk that the issuer will not be able to pay interest or dividends when due and their market value may change based on changes in the issuer's credit rating or the market's perception of the issuer's creditworthiness. Some convertible preferred stocks have a conversion or call feature that allows the issuer to redeem the stock before the conversion date, which could diminish the potential for capital appreciation on the investment.

Preferred Securities. The fixed dividend rate of preferred stocks may cause their prices to behave more like those of debt securities. If interest rates rise, the value of preferred stock having a fixed dividend rate tends to fall. Preferred stock generally ranks behind debt securities in claims for dividends and assets of the issuer in a liquidation or bankruptcy.

Rights and Warrants. The price of a warrant does not necessarily move parallel to the price of the underlying security and is generally more volatile than that of the underlying security. Rights are similar to warrants, but normally have a shorter duration. The market for rights or warrants may be very limited and it may be difficult to sell them promptly at an acceptable price. Rights and warrants have no voting rights, receive no dividends and have no rights with respect to the assets of the issuer.

Sector Risk. Sector risk is the possibility that securities within the same group of industries will decline in price due to sector-specific market or economic developments. If the Fund invests more heavily in a sector, the value of its shares may be especially sensitive to factors and economic risks that specifically affect that sector.

Non-Diversification Risk. The Fund is a non-diversified portfolio, which means that it has the ability to take larger positions in a smaller number of securities than a portfolio that is "diversified." Non-diversification increases the risk that the value of the Fund could go down because of the poor performance of a single investment or limited number of investments.

ETF Structure Risk. The Fund is structured as an ETF and as a result is subject to special risks, including:

- *Trading Issues Risk*. Although it is expected that shares of the Fund will remain listed for trading on NYSE Arca (the "Exchange"), trading in Fund shares on the Exchange may be halted due to market conditions or for reasons that, in the view of the Exchange, make trading in Fund shares inadvisable, such as extraordinary market volatility. There can be no assurance that Fund shares will continue to meet the listing requirements of the Exchange or will trade with any volume. There is no guarantee that an active secondary market will develop for shares of the Fund. In stressed market conditions, the liquidity of shares of the Fund may begin to mirror the liquidity of the Fund's underlying portfolio holdings, which can be significantly less liquid than shares of the Fund. This adverse effect on liquidity for the Fund's shares in turn could lead to differences between the market price of the Fund's shares and the underlying value of those Shares.

- *Market Price Variance Risk*. The market prices of shares of the Fund will fluctuate in response to changes in the Fund's net asset value ("NAV") and supply and demand for Fund shares and will include a "bid-ask spread" charged by the exchange specialists, market makers or other participants that trade the particular security. There may be times when the market price and the NAV vary significantly. This means that Fund shares may trade at a discount to NAV. The market price of Shares may deviate from the value of the Fund's underlying portfolio holdings, particularly in times of market stress, with the result that investors may pay significantly more or receive significantly less than the underlying value of the shares of the Fund bought or sold.

- *Authorized Participants ("APs"), Market Makers, and Liquidity Providers Risk.* The Fund has a limited number of financial institutions that may act as APs. In addition, there may be a limited number of market makers and/or liquidity providers in the marketplace. To the extent either of the following events occur, shares of the Fund may trade at a material discount to NAV and possibly face delisting: (i) APs exit the business or otherwise become unable to process creation and/or redemption orders and no other APs step forward to perform these services, or (ii) market makers and/or liquidity providers exit the business or significantly reduce their business activities and no other entities step forward to perform their functions.

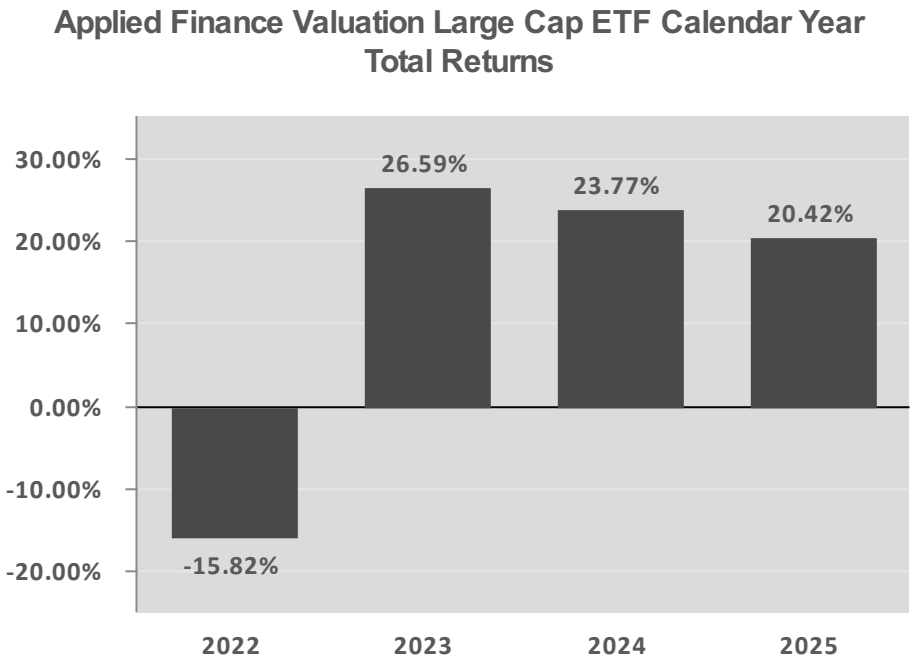
- *Costs of Buying or Selling Shares of the Fund.* Due to the costs of buying or selling shares of the Fund, including brokerage commissions imposed by brokers and bid/ask spreads, frequent trading of shares of the Fund may significantly reduce investment results and an investment in shares of the Fund may not be advisable for investors who anticipate regularly making small investments.

Mid and Small Capitalization Stock Risk. The value of mid and small capitalization company stocks may be subject to more abrupt or erratic market movements than those of larger, more established companies or the market averages in general.

Performance History

The bar chart and table below provide some indication of the risks of investing in the Fund by showing changes in the Fund's performance year to year and by showing the Fund's average annual returns for the periods indicated as compared with those of a broad measure of market performance. The Fund's past performance (before and after taxes) is not necessarily an indication of how the Fund will perform in the future.

Updated performance information for the Fund, including its current net asset value per share, is available by calling toll-free 833-356-0909.



Annual Total Returns (calendar years ended 12/31)

During the period shown, the highest quarterly return was 11.85% (quarter ended 6/30/25) and the lowest quarterly return was -14.26% (quarter ended 6/30/22).

Average Annual Returns for Periods Ended December 31, 2025

The table below shows how the Fund's average annual total returns compare to those of the Fund's benchmark. The table also presents the impact of taxes on the Fund's performance. After-tax returns are calculated using the historical highest marginal individual U.S. federal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown. After-tax returns shown are not relevant to investors who hold their Fund shares through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts.

	One Year	Since Inception[1]
Return Before Taxes	20.42%	13.53%
Return After-Taxes on Distributions	20.28%	13.35%
Return After-Taxes on Distributions and Sale of Fund Shares	12.18%	10.79%
Morningstar® US Market Total Return Index (TR) (reflects no deduction for fees, expenses or taxes)[2]	17.35%	11.43%
Morningstar® US Large-Mid Cap Index (TR) (reflects no deduction for fees, expenses or taxes)	17.71%	11.97%

[1] The Fund commenced operations on April 29, 2021.

[2] The Morningstar® US Market Total Return Index (TR) is the Fund's new broad-based securities market index. The Fund will continue to show performance for the Morningstar® US Large-Mid Cap Index (TR), the Fund's previous broad-based securities market index. The Morningstar® US Market Total Return Index (TR) is a rule-based, float-weighted index that tracks the performance of the U.S. stock market, targeting 97% of the investable universe. It includes a broad spectrum of large-, mid-, and small-cap stocks, providing a comprehensive measure of the U.S. equity market. The index is reconstituted semiannually and rebalanced quarterly to ensure it accurately reflects the market's composition.

Investment Adviser and Sub-Adviser

Applied Finance Advisors, LLC (the "Adviser") is the investment adviser to the Fund.

Tidal Investments, LLC (the "Sub-Adviser") is the sub-adviser to the Fund.

Portfolio Managers

Adviser's Portfolio Managers: Paul Blinn, Managing Member of the Adviser, and Rafael Resendes, Managing Member of the Adviser, have served as the Fund's portfolio managers since its inception.

Sub-Adviser's Portfolio Managers: Michael Venuto, Co-Founder and Chief Investment Officer of the Sub-Adviser, and Charles A. Ragauss, CFA, Portfolio Manager and Head of Trading of the Sub-Adviser, have served as the Fund's portfolio managers since its inception.

Purchase and Sale of Fund Shares

The Fund will issue (or redeem) shares to certain institutional investors (typically market makers or other broker-dealers) only in large blocks of at least twenty-five thousand (25,000) shares known as "Creation Units." Creation Unit transactions are typically conducted in exchange for the deposit or delivery of in-kind securities and/or cash. Individual shares may only be purchased and sold on a national securities exchange through a broker-dealer. You can purchase and sell individual shares of the Fund throughout the trading day like any publicly traded security. The Fund's shares are listed on the NYSE Arca (the "Exchange"). The price of the Fund's shares is based on market price, and because ETF shares trade at market prices rather than NAV, Fund shares may trade at a price greater than NAV (premium) or less than NAV (discount). When buying or selling shares through a broker, most investors will incur customary brokerage commissions and charges and you may pay some or all of the spread between the bid and the offered prices in the secondary market for shares. Except when aggregated in Creation Units, the Fund's shares are not redeemable securities. Recent information regarding the Fund, including its NAV, market price, premiums and discounts, and bid/ask spreads, is available on the Fund's website at www.appliedfinancefunds.com.

Tax Information

The Fund's distributions will be taxed as ordinary income or capital gain, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or an individual retirement account, in which case withdrawals from such arrangements generally will be taxed.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase shares of the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other financial intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.

FUND SUMMARY – Applied Finance IVS US SMID ETF

Investment Objective

The Applied Finance IVS US SMID ETF (the "Fund") seeks long term capital appreciation.

Fees and Expenses of the Fund

This table describes the fees and expenses that you may pay if you buy, hold and sell shares of the Fund. **You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the tables and examples below.**

Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)	
Management Fee[(1)]	0.59%
Distribution (12b-1) and Service Fees	0.00%
Other Expenses	0.00%
Total Annual Fund Operating Expenses	0.59%

(1) Under the Investment Advisory Agreement, Applied Finance Advisors, LLC (the "Adviser"), at its own expense and without reimbursement from the Fund, pays all of the expenses of the Fund, excluding the advisory fees, interest expenses, taxes, acquired fund fees and expenses, brokerage commissions and any other portfolio transaction-related expenses and fees arising out of transactions effected on behalf of the Fund, credit facility fees and expenses, including interest expenses, and litigation and indemnification expenses and other extraordinary expenses not incurred in the ordinary course of the Fund's business.

Example

This example is intended to help you compare the cost of investing in the Fund with the cost of investing in other funds. The example assumes that you invest $10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

Name of Fund	1 Year	3 Years	5 Years	10 Years
Applied Finance IVS US SMID ETF	$60	$189	$329	$738

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the example, affect the Fund's performance. For the period December 4, 2025 (commencement of operations) to December 31, 2025, the Fund's portfolio turnover rate was ~~0.25%~~ 0.04% of the average value of its portfolio.

Principal Investment Strategies

Under normal circumstances, the Fund will invest at least 80% of its net assets in equity securities of US small to mid ("SMID") capitalization companies. The Fund defines SMID cap companies as companies with market capitalizations less than $15 billion, measured at the time of purchase. In choosing investments, the Adviser typically selects SMID cap equity securities that it believes offer superior return potential and may consider, among other factors, a company's valuation, projected future earnings, dividends, financing activity, growth potential, recent performance, and business

strategy. To select securities for the Fund, the Adviser utilizes its proprietary research and valuation models that employ the factors described above to identify appropriate securities for the Fund.

The Advisor incorporates its Intrinsic Value Stewardship ("IVS") analytical model as part of its investment process to understand a company's attractiveness for possible investment. Intrinsic Value is derived from the Adviser's proprietary valuation process that considers, among other factors, a company's profitability, competition, growth rate and cost of capital. Stewardship reflects how a firm utilizes its capital and considers, among other factors, a company's profitability, cost of capital, and financing activities.

The Fund is actively managed and does not seek to replicate an index. The Adviser anticipates generally holding at least 150 different positions in the Fund's portfolio. Although the Fund generally holds at least 150 different positions across a broad spectrum of sectors, it may at times take larger positions (greater than 5%) in certain holdings and/or sectors when its research and valuation models indicate that such investments are appropriate. As a result, the Fund will operate as a "non-diversified" fund, which means it can invest in fewer securities at any one time than a diversified fund.

The Fund may also invest in convertible securities, preferred stocks, rights and warrants, real estate investment trusts ("REITs") and American depositary receipts ("ADRs").

The Adviser will typically sell a company from the Fund's portfolio when the Adviser believes it no longer offers superior investment potential. The Adviser may also sell positions that have grown too large relative to the overall portfolio. The Fund's investments will be the responsibility of the Adviser and the Fund's sub-adviser, Tidal Investments, LLC.

Principal Risks

As with all funds, a shareholder is subject to the risk that his or her investment could lose money. The principal risks affecting shareholders' investments in the Fund are set forth below. An investment in the Fund is not a bank deposit and is not insured or guaranteed by the FDIC or any government agency. The principal risks described herein pertain to direct risks of making an investment in the Fund and/or risks of the issuers in which the Fund invests.

Equity Securities Risk. There is no guarantee that any favorable past performance of stocks selected for the Fund's portfolio will continue, and such stocks may experience significant declines in value over short and longer time periods. Companies that issue these stocks may experience lower than expected returns or may experience negative growth, as well as increased leverage, resulting in lower than expected or negative returns to Fund shareholders. Many factors can affect a stock's quality and performance, and the impact of these factors on a stock or its price can be difficult to predict. The Fund is subject to the risk that stock prices will fall over short or extended periods of time. Historically, the equity markets have moved in cycles, and the value of the Fund's stocks may fluctuate from day to day. Individual companies may report poor results or be negatively affected by industry and/or economic trends and developments and adversely affect the Fund's performance. The prices of stocks issued by such companies may suffer a decline in response. These factors contribute to price volatility, which is a principal risk of investing in the Fund.

Market and Geopolitical Risk. Market risk includes the possibility that the Fund's investments will decline in value because of a downturn in the stock market, reducing the value of individual companies' stocks regardless of the success or failure of an individual company's operations. The value of your investment in the Fund is based on the market prices of the securities the Fund holds. These prices change daily due to economic and other events that affect markets generally, as well as those that affect particular regions, countries, industries, companies or governments. The increasing interconnectivity between global economies and financial markets increases the likelihood that events or conditions in one region or financial market may adversely impact issuers in a different country, region or financial market. Securities in the Fund's portfolio may underperform due to inflation (or expectations for inflation), interest rates, global demand for particular products or resources, natural disasters, pandemics, epidemics, terrorism, regulatory events and governmental or quasi-governmental actions. The occurrence of global events similar to those in recent years, such as terrorist attacks around the world, natural disasters, social and political discord or debt crises and downgrades, among others, may result in market volatility and may have long term effects on both the U.S. and global financial markets. There is a risk that you may lose money by investing in the Fund.

Mid and Small Capitalization Stock Risk. The value of a mid and small capitalization company stocks may be subject to more abrupt or erratic market movements than those of larger, more established companies or the market averages in general.

Foreign Securities Risk. Investments in the securities of non-U.S. issuers involve risks beyond those associated with investments in U.S. securities. These additional risks include greater market volatility, the availability of less reliable financial information, higher transactional and custody costs, taxation by foreign governments, decreased market liquidity and political instability. Some countries and regions have experienced security concerns, war or threats of war and aggression, terrorism, economic uncertainty, natural and environmental disasters and/or systemic market dislocations that have led, and in the future may lead, to increased short-term market volatility and may have adverse long-term effects on the U.S. and world economies and markets generally. Foreign issuers are often subject to less stringent requirements regarding accounting, auditing, financial reporting and record keeping than are U.S. issuers, and therefore not all material information will be available. Securities exchanges or foreign governments may adopt rules or regulations that may negatively impact the Fund's ability to invest in foreign securities or may prevent the Fund from repatriating its investments. Less developed securities markets are more likely to experience problems with the clearing and settling of trades, as well as the holding of securities by local banks, agents and depositories. The less developed a country's securities market is, the greater the likelihood of custody problems.

Depositary Receipts Risk. Depositary receipts are generally subject to the same risks as the foreign securities that they evidence or into which they may be converted, including the risk that there is often less publicly available information about foreign issuers, and the possibility of negative governmental actions and of political and social unrest.

REITs Risk. Investing in REITs involves unique risks. When the Fund invests in REITs, it is subject to risks generally associated with investing in real estate. A REIT's performance depends on the types and locations of the properties it owns, how well it manages those properties and cash flow. REITs may have limited financial resources, may trade less frequently and in limited volume, may engage in dilutive offerings, and may be subject to more abrupt or erratic price movements than the overall securities markets.

Issuer Risk. The performance of the Fund depends on the performance of individual securities to which the Fund has exposure. Changes in the financial condition or credit rating of an issuer of those securities may cause the value of the securities to decline.

Risks of Investment Selection. The Fund's investment success depends on the skill of the Adviser in evaluating, selecting, and monitoring the portfolio assets. If the Adviser's conclusions about growth rates or securities values are incorrect, the Fund may not perform as anticipated.

Risk of Other Equity Securities. Other equity securities in which the Fund may invest include convertible securities, preferred securities, rights and warrants.

- *Convertible Securities*. Convertible securities are subject to the risks and price fluctuations of the underlying stock. They may be subject to the risk that the issuer will not be able to pay interest or dividends when due and their market value may change based on changes in the issuer's credit rating or the market's perception of the issuer's creditworthiness. Some convertible preferred stocks have a conversion or call feature that allows the issuer to redeem the stock before the conversion date, which could diminish the potential for capital appreciation on the investment.

- *Preferred Securities*. The fixed dividend rate of preferred stocks may cause their prices to behave more like those of debt securities. If interest rates rise, the value of preferred stock having a fixed dividend rate tends to fall. Preferred stock generally ranks behind debt securities in claims for dividends and assets of the issuer in a liquidation or bankruptcy.

- *Rights and Warrants*. The price of a warrant does not necessarily move parallel to the price of the underlying security and is generally more volatile than that of the underlying security. Rights are similar to warrants, but normally have a shorter duration. The market for rights or warrants may be very limited and it may be difficult to

sell them promptly at an acceptable price. Rights and warrants have no voting rights, receive no dividends and have no rights with respect to the assets of the issuer.

Non-Diversification Risk. The Fund is classified as "non-diversified" under the Investment Company Act of 1940, as amended. This means it has the ability to invest a relatively high percentage of its assets in the securities of a small number of issuers or in financial instruments with a single counterparty or a few counterparties. This may increase the Fund's volatility and increase the risk that the Fund's performance will decline based on the performance of a single issuer or the credit of a single counterparty and make the Fund more susceptible to risks associated with a single economic, political or regulatory occurrence than a diversified fund.

ETF Risks. The Fund is an exchange-traded fund, and, as a result of an ETF's structure, it is exposed to the following risks:

- *Authorized Participants, Market Makers, and Liquidity Providers Limitation Risk*. The Fund has a limited number of financial institutions that may act as Authorized Participants ("APs"). In addition, there may be a limited number of market makers and/or liquidity providers in the marketplace. To the extent either of the following events occur, Shares may trade at a material discount to NAV and possibly face delisting: (i) APs exit the business or otherwise become unable to process creation and/or redemption orders and no other APs step forward to perform these services, or (ii) market makers and/or liquidity providers exit the business or significantly reduce their business activities and no other entities step forward to perform their functions.

- *Cash Redemption Risk*. From time to time, the Fund may redeem Shares for cash or to otherwise include cash as part of its redemption proceeds. The Fund may be required to sell or unwind portfolio investments to obtain the cash needed to distribute redemption proceeds. This may cause the Fund to recognize a capital gain that it might not have recognized if it had made a redemption in-kind. As a result, the Fund may pay out higher annual capital gain distributions than if the in-kind redemption process was used.

- *Costs of Buying or Selling Shares*. Due to the costs of buying or selling Shares, including brokerage commissions imposed by brokers and bid/ask spreads, frequent trading of Shares may significantly reduce investment results and an investment in Shares may not be advisable for investors who anticipate regularly making small investments.

- *Shares May Trade at Prices Other Than NAV*. As with all ETFs, Shares may be bought and sold in the secondary market at market prices. Although it is expected that the market price of Shares will approximate the Fund's NAV, there may be times when the market price of Shares is more than the NAV intra-day (premium) or less than the NAV intra-day (discount) due to supply and demand of Shares or during periods of market volatility. This risk is heightened in times of market volatility and volatility in the Fund's portfolio holdings, periods of steep market declines, and periods when there is limited trading activity for Shares in the secondary market, in which case such premiums or discounts may be significant. If an investor purchases Shares at a time when the market price is at a premium to the NAV of the Shares or sells at a time when the market price is at a discount to the NAV of the Shares, then the investor may sustain losses that are in addition to any losses caused by a decrease in NAV.

- *Trading*. Although Shares are listed for trading on a national securities exchange, and may be traded on other U.S. exchanges, there can be no assurance that Shares will trade with any volume, or at all, on any stock exchange. In stressed market conditions, the liquidity of Shares may begin to mirror the liquidity of the Fund's underlying portfolio holdings, which can be significantly less liquid than Fund Shares.

New Fund Risk. As of the date of this prospectus, the Fund has less than a year of operations and currently has fewer assets than larger funds. Like other new funds, large inflows and outflows may impact the Fund's market exposure for limited periods of time. This impact may be positive or negative, depending on the direction of market movement during the period affected.

Performance History

The Fund does not have a full calendar year of performance history. In the future, performance information will be presented in this section of the Prospectus. Performance information will contain a bar chart and table that provide some indication of the risks of investing in the Fund by showing changes in the Fund's performance from year to year and by showing the Fund's average annual returns for certain time periods as compared to a broad measure of market performance. Investors should be aware that past performance before and after taxes is not necessarily an indication of how the Fund will perform in the future.

Updated performance information for the Fund, including its current NAV per share, is available by calling toll-free 833-356-0909.

Investment Adviser and Sub-Adviser

Applied Finance Advisors, LLC (the "Adviser") is the investment adviser to the Fund.

Tidal Investments, LLC (the "Sub-Adviser") is the sub-adviser to the Fund.

Portfolio Managers

Adviser's Portfolio Managers: Paul Blinn, Managing Member of the Adviser, and Rafael Resendes, Managing Member of the Adviser

Sub-Adviser's Portfolio Managers: Andy Hicks, Senior Vice President of Trading of the Sub-Adviser, and Qiao Duan, CFA, Portfolio Manager of the Sub-Adviser.

Purchase and Sale of Fund Shares

The Fund will issue (or redeem) shares to certain institutional investors (typically market makers or other broker-dealers) only in large blocks of at least twenty-five thousand (25,000) shares known as "Creation Units." Creation Unit transactions are typically conducted in exchange for the deposit or delivery of in-kind securities and/or cash. Individual shares may only be purchased and sold on a national securities exchange through a broker-dealer. You can purchase and sell individual shares of the Fund throughout the trading day like any publicly traded security. The Fund's shares are listed on the NASDAQ (the "Exchange"). The price of the Fund's shares is based on market price, and because ETF shares trade at market prices rather than NAV, Fund shares may trade at a price greater than NAV (premium) or less than NAV (discount). When buying or selling shares through a broker, most investors will incur customary brokerage commissions and charges and you may pay some or all of the spread between the bid and the offered prices in the secondary market for shares. Except when aggregated in Creation Units, the Fund's shares are not redeemable securities. Recent information regarding the Fund, including its NAV, market price, premiums and discounts, and bid/ask spreads, is available on the Fund's website at www.appliedfinancefunds.com.

Tax Information

The Fund's distributions will be taxed as ordinary income or capital gain, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or an individual retirement account, in which case withdrawals from such arrangements generally will be taxed.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase shares of the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other financial intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.

FUND SUMMARY – Applied Finance IVS International Large ETF

Investment Objective

The Applied Finance IVS International Large ETF (the "Fund") seeks long term capital appreciation.

Fees and Expenses of the Fund

This table describes the fees and expenses that you may pay if you buy, hold and sell shares of the Fund. **You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the tables and examples below.** **Annual Fund Operating Expenses** (expenses that you pay each year as a percentage of the value of your investment)	
Management Fee[(1)]	0.65%
Distribution (12b-1) and Service Fees	0.00%
Other Expenses[(2)]	0.00%
Total Annual Fund Operating Expenses	0.65 %

(1) Under the Investment Advisory Agreement, Applied Finance Advisors, LLC (the "Adviser"), at its own expense and without reimbursement from the Fund, pays all of the expenses of the Fund, excluding the advisory fees, interest expenses, taxes, acquired fund fees and expenses, brokerage commissions and any other portfolio transaction-related expenses and fees arising out of transactions effected on behalf of the Fund, credit facility fees and expenses, including interest expenses, and litigation and indemnification expenses and other extraordinary expenses not incurred in the ordinary course of the Fund's business.

Example

This example is intended to help you compare the cost of investing in the Fund with the cost of investing in other funds. The example assumes that you invest $10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

Name of Fund	1 Year	3 Years	5 Years	10 Years
Applied Finance IVS International Large ETF	$66	$208	$362	$810

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the example, affect the Fund's performance. For the period December 11, 2025 (commencement of operations) to December 31, 2025, the Fund's portfolio turnover rate was 0.00% of the average value of its portfolio.

Principal Investment Strategies

Under normal circumstances, the Fund will invest at least 80% of its net assets in equity securities of large-capitalization companies located in developed markets outside of North America, which generally include markets such as Australia, Austria, Belgium, Denmark, Finland, France, Germany, Hong Kong, Ireland, Italy, Japan, Luxembourg, the Netherlands, New Zealand, Norway, Singapore, Spain, Sweden, Switzerland, and the United Kingdom. The Fund defines large cap companies as companies with market capitalizations of $5 billion or more, measured at the time of purchase. In choosing investments, the Adviser typically selects large cap equity securities that it believes offer superior return potential and

may consider, among other factors, a company's valuation, projected future earnings, dividends, financing activity, growth potential, recent performance, and business strategy. To select securities for the Fund, the Adviser utilizes its proprietary research and valuation models that employ the factors described above to identify appropriate securities for the Fund.

The Advisor incorporates its Intrinsic Value Stewardship ("IVS") analytical model as part of its investment process to understand a company's attractiveness for possible investment. Intrinsic Value is derived from the Adviser's proprietary valuation process that considers, among other factors, a company's profitability, competition, growth rate and cost of capital. Stewardship reflects how a firm utilizes its capital and considers, among other factors, a company's profitability, cost of capital, and financing activities.

The Fund is actively managed and does not seek to replicate an index. The Adviser anticipates generally holding at least 150 different positions in the Fund's portfolio. Although the Fund generally holds at least 150 different positions across a broad spectrum of countries and sectors, it may at times take larger positions (greater than 5%) in certain holdings and/or sectors when its research and valuation models indicate that such investments are appropriate. As a result, the Fund will operate as a "non-diversified" fund, which means it can invest in fewer securities at any one time than a diversified fund.

The Fund may also invest in small and mid-cap companies, convertible securities, preferred stocks, rights and warrants, real estate investment trusts ("REITs") and American depositary receipts ("ADRs").

The Adviser will typically sell a company from the Fund's portfolio when the Adviser believes it no longer offers superior investment potential. The Adviser may also sell positions that have grown too large relative to the overall portfolio. The Fund's investments will be the responsibility of the Adviser and the Fund's sub-adviser, Tidal Investments, LLC.

Principal Risks

As with all funds, a shareholder is subject to the risk that his or her investment could lose money. The principal risks affecting shareholders' investments in the Fund are set forth below. An investment in the Fund is not a bank deposit and is not insured or guaranteed by the FDIC or any government agency. The principal risks described herein pertain to direct risks of making an investment in the Fund and/or risks of the issuers in which the Fund invests.

Equity Securities Risk. There is no guarantee that any favorable past performance of stocks selected for the Fund's portfolio will continue, and such stocks may experience significant declines in value over short and longer time periods. Companies that issue these stocks may experience lower than expected returns or may experience negative growth, as well as increased leverage, resulting in lower than expected or negative returns to Fund shareholders. Many factors can affect a stock's quality and performance, and the impact of these factors on a stock or its price can be difficult to predict. The Fund is subject to the risk that stock prices will fall over short or extended periods of time. Historically, the equity markets have moved in cycles, and the value of the Fund's stocks may fluctuate from day to day. Individual companies may report poor results or be negatively affected by industry and/or economic trends and developments and adversely affect the Fund's performance. The prices of stocks issued by such companies may suffer a decline in response. These factors contribute to price volatility, which is a principal risk of investing in the Fund.

Market and Geopolitical Risk. Market risk includes the possibility that the Fund's investments will decline in value because of a downturn in the stock market, reducing the value of individual companies' stocks regardless of the success or failure of an individual company's operations. The value of your investment in the Fund is based on the market prices of the securities the Fund holds. These prices change daily due to economic and other events that affect markets generally, as well as those that affect particular regions, countries, industries, companies or governments. The increasing interconnectivity between global economies and financial markets increases the likelihood that events or conditions in one region or financial market may adversely impact issuers in a different country, region or financial market. Securities in the Fund's portfolio may underperform due to inflation (or expectations for inflation), interest rates, global demand for particular products or resources, natural disasters, pandemics, epidemics, terrorism, regulatory events and governmental or quasi-governmental actions. The occurrence of global events similar to those in recent years, such as terrorist attacks around the world, natural disasters, social and political discord or debt crises and downgrades, among others, may result in market volatility and may have long term effects on both the U.S. and global financial markets. There is a risk that you may lose money by investing in the Fund.

Large-Cap Company Risk. Larger, more established companies may be unable to attain the high growth rates of successful, smaller companies during periods of economic expansion.

Mid and Small Capitalization Stock Risk*.* The value of a mid and small capitalization company stocks may be subject to more abrupt or erratic market movements than those of larger, more established companies or the market averages in general.

Foreign Securities Risk. Investments in the securities of non-U.S. issuers involve risks beyond those associated with investments in U.S. securities. These additional risks include greater market volatility, the availability of less reliable financial information, higher transactional and custody costs, taxation by foreign governments, decreased market liquidity and political instability. Some countries and regions have experienced security concerns, war or threats of war and aggression, terrorism, economic uncertainty, natural and environmental disasters and/or systemic market dislocations that have led, and in the future may lead, to increased short-term market volatility and may have adverse long-term effects on the U.S. and world economies and markets generally. Foreign issuers are often subject to less stringent requirements regarding accounting, auditing, financial reporting and record keeping than are U.S. issuers, and therefore not all material information will be available. Securities exchanges or foreign governments may adopt rules or regulations that may negatively impact the Fund's ability to invest in foreign securities or may prevent the Fund from repatriating its investments. Less developed securities markets are more likely to experience problems with the clearing and settling of trades, as well as the holding of securities by local banks, agents and depositories. The less developed a country's securities market is, the greater the likelihood of custody problems.

Depositary Receipts Risk. Depositary receipts are generally subject to the same risks as the foreign securities that they evidence or into which they may be converted, including the risk that there is often less publicly available information about foreign issuers, and the possibility of negative governmental actions and of political and social unrest.

REITs Risk. Investing in REITs involves unique risks. When the Fund invests in REITs, it is subject to risks generally associated with investing in real estate. A REIT's performance depends on the types and locations of the properties it owns, how well it manages those properties and cash flow. REITs may have limited financial resources, may trade less frequently and in limited volume, may engage in dilutive offerings, and may be subject to more abrupt or erratic price movements than the overall securities markets.

Foreign Currency Risk. Although the Fund will report its NAV and pay dividends in U.S. dollars, foreign securities often are purchased with and make any dividend and interest payments in foreign currencies. Therefore, the Fund's NAV could decline solely as a result of changes in the exchange rates between foreign currencies and the U.S. dollar, particularly if the Fund invests a significant percentage of its assets in foreign securities or other assets denominated in currencies not tightly pegged to the U.S.

Issuer Risk. The performance of the Fund depends on the performance of individual securities to which the Fund has exposure. Changes in the financial condition or credit rating of an issuer of those securities may cause the value of the securities to decline.

Risks of Investment Selection. The Fund's investment success depends on the skill of the Adviser in evaluating, selecting, and monitoring the portfolio assets. If the Adviser's conclusions about growth rates or securities values are incorrect, the Fund may not perform as anticipated.

Risk of Other Equity Securities. Other equity securities in which the Fund may invest include convertible securities, preferred securities, rights and warrants.

- *Convertible Securities*. Convertible securities are subject to the risks and price fluctuations of the underlying stock. They may be subject to the risk that the issuer will not be able to pay interest or dividends when due and their market value may change based on changes in the issuer's credit rating or the market's perception of the issuer's creditworthiness. Some convertible preferred stocks have a conversion or call feature that allows the issuer to

redeem the stock before the conversion date, which could diminish the potential for capital appreciation on the investment.

- *Preferred Securities*. The fixed dividend rate of preferred stocks may cause their prices to behave more like those of debt securities. If interest rates rise, the value of preferred stock having a fixed dividend rate tends to fall. Preferred stock generally ranks behind debt securities in claims for dividends and assets of the issuer in a liquidation or bankruptcy.

- *Rights and Warrants*. The price of a warrant does not necessarily move parallel to the price of the underlying security and is generally more volatile than that of the underlying security. Rights are similar to warrants, but normally have a shorter duration. The market for rights or warrants may be very limited and it may be difficult to sell them promptly at an acceptable price. Rights and warrants have no voting rights, receive no dividends and have no rights with respect to the assets of the issuer.

Non-Diversification Risk. The Fund is classified as "non-diversified" under the Investment Company Act of 1940, as amended. This means it has the ability to invest a relatively high percentage of its assets in the securities of a small number of issuers or in financial instruments with a single counterparty or a few counterparties. This may increase the Fund's volatility and increase the risk that the Fund's performance will decline based on the performance of a single issuer or the credit of a single counterparty and make the Fund more susceptible to risks associated with a single economic, political or regulatory occurrence than a diversified fund.

ETF Risks. The Fund is an exchange-traded fund, and, as a result of an ETF's structure, it is exposed to the following risks:

- *Authorized Participants, Market Makers, and Liquidity Providers Limitation Risk*. The Fund has a limited number of financial institutions that may act as Authorized Participants ("APs"). In addition, there may be a limited number of market makers and/or liquidity providers in the marketplace. To the extent either of the following events occur, Shares may trade at a material discount to NAV and possibly face delisting: (i) APs exit the business or otherwise become unable to process creation and/or redemption orders and no other APs step forward to perform these services, or (ii) market makers and/or liquidity providers exit the business or significantly reduce their business activities and no other entities step forward to perform their functions.

- *Cash Redemption Risk*. From time to time, the Fund may redeem Shares for cash or to otherwise include cash as part of its redemption proceeds. The Fund may be required to sell or unwind portfolio investments to obtain the cash needed to distribute redemption proceeds. This may cause the Fund to recognize a capital gain that it might not have recognized if it had made a redemption in-kind. As a result, the Fund may pay out higher annual capital gain distributions than if the in-kind redemption process was used.

- *Costs of Buying or Selling Shares*. Due to the costs of buying or selling Shares, including brokerage commissions imposed by brokers and bid/ask spreads, frequent trading of Shares may significantly reduce investment results and an investment in Shares may not be advisable for investors who anticipate regularly making small investments.

- *Shares May Trade at Prices Other Than NAV*. As with all ETFs, Shares may be bought and sold in the secondary market at market prices. Although it is expected that the market price of Shares will approximate the Fund's NAV, there may be times when the market price of Shares is more than the NAV intra-day (premium) or less than the NAV intra-day (discount) due to supply and demand of Shares or during periods of market volatility. This risk is heightened in times of market volatility and volatility in the Fund's portfolio holdings, periods of steep market declines, and periods when there is limited trading activity for Shares in the secondary market, in which case such premiums or discounts may be significant. If an investor purchases Shares at a time when the market price is at a premium to the NAV of the Shares or sells at a time when the market price is at a discount to the NAV of the Shares, then the investor may sustain losses that are in addition to any losses caused by a decrease in NAV.

- *Trading*. Although Shares are listed for trading on a national securities exchange, and may be traded on other U.S. exchanges, there can be no assurance that Shares will trade with any volume, or at all, on any stock exchange. In

stressed market conditions, the liquidity of Shares may begin to mirror the liquidity of the Fund's underlying portfolio holdings, which can be significantly less liquid than Fund Shares.

New Fund Risk. As of the date of this prospectus, the Fund has less than a year of operations and currently has fewer assets than larger funds. Like other new funds, large inflows and outflows may impact the Fund's market exposure for limited periods of time. This impact may be positive or negative, depending on the direction of market movement during the period affected.

Performance History

The Fund does not have a full calendar year of performance history. In the future, performance information will be presented in this section of the Prospectus. Performance information will contain a bar chart and table that provide some indication of the risks of investing in the Fund by showing changes in the Fund's performance from year to year and by showing the Fund's average annual returns for certain time periods as compared to a broad measure of market performance. Investors should be aware that past performance before and after taxes is not necessarily an indication of how the Fund will perform in the future.

Updated performance information for the Fund, including its current NAV per share, is available by calling toll-free 833-356-0909.

Investment Adviser and Sub-Adviser

Applied Finance Advisors, LLC (the "Adviser") is the investment adviser to the Fund.

Tidal Investments, LLC (the "Sub-Adviser") is the sub-adviser to the Fund.

Portfolio Managers

Adviser's Portfolio Managers: Paul Blinn, Managing Member of the Adviser, and Rafael Resendes, Managing Member of the Adviser

Sub-Adviser's Portfolio Managers: Andy Hicks, Senior Vice President of Trading of the Sub-Adviser, and Qiao Duan, CFA, Portfolio Manager of the Sub-Adviser.

Purchase and Sale of Fund Shares

The Fund will issue (or redeem) shares to certain institutional investors (typically market makers or other broker-dealers) only in large blocks of at least twenty-five thousand (25,000) shares known as "Creation Units." Creation Unit transactions are typically conducted in exchange for the deposit or delivery of in-kind securities and/or cash. Individual shares may only be purchased and sold on a national securities exchange through a broker-dealer. You can purchase and sell individual shares of the Fund throughout the trading day like any publicly traded security. The Fund's shares are listed on the NASDAQ (the "Exchange"). The price of the Fund's shares is based on market price, and because ETF shares trade at market prices rather than NAV, Fund shares may trade at a price greater than NAV (premium) or less than NAV (discount). When buying or selling shares through a broker, most investors will incur customary brokerage commissions and charges and you may pay some or all of the spread between the bid and the offered prices in the secondary market for shares. Except when aggregated in Creation Units, the Fund's shares are not redeemable securities. Recent information regarding the Fund, including its NAV, market price, premiums and discounts, and bid/ask spreads, is available on the Fund's website at www.appliedfinancefunds.com.

Tax Information

The Fund's distributions will be taxed as ordinary income or capital gain, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or an individual retirement account, in which case withdrawals from such arrangements generally will be taxed.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase shares of the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other financial intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.

FUND SUMMARY – Applied Finance IVS International SMID ETF

Investment Objective

The Applied Finance IVS International SMID ETF (the "Fund") seeks long term capital appreciation.

Fees and Expenses of the Fund

This table describes the fees and expenses that you may pay if you buy, hold and sell shares of the Fund. **You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the tables and examples below.** **Annual Fund Operating Expenses** (expenses that you pay each year as a percentage of the value of your investment)	
Management Fee[(1)]	0.75%
Distribution (12b-1) and Service Fees	0.00%
Other Expenses[(2)]	0.00%
Total Annual Fund Operating Expenses	0.75%

(1) Under the Investment Advisory Agreement, Applied Finance Advisors, LLC (the "Adviser"), at its own expense and without reimbursement from the Fund, pays all of the expenses of the Fund, excluding the advisory fees, interest expenses, taxes, acquired fund fees and expenses, brokerage commissions and any other portfolio transaction-related expenses and fees arising out of transactions effected on behalf of the Fund, credit facility fees and expenses, including interest expenses, and litigation and indemnification expenses and other extraordinary expenses not incurred in the ordinary course of the Fund's business.

(2) Other Expenses are estimated for the Fund's initial fiscal year.

Example

This example is intended to help you compare the cost of investing in the Fund with the cost of investing in other funds. The example assumes that you invest $10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

Name of Fund	1 Year	3 Years
Applied Finance IVS International SMID ETF	$77	$240

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the example, affect the Fund's performance. As of the date of December 31 ,2025, the Fund had not yet commenced operations and therefore does not have any portfolio turnover information available.

Principal Investment Strategies

Under normal circumstances, the Fund will invest at least 80% of its net assets in equity securities of small to mid ("SMID") capitalization companies located in developed markets outside of North America, which generally include markets such as Australia, Austria, Belgium, Denmark, Finland, France, Germany, Hong Kong, Ireland, Italy, Japan, Luxembourg, the Netherlands, New Zealand, Norway, Singapore, Spain, Sweden, Switzerland, and the United Kingdom.

The Fund defines SMID cap companies as companies with market capitalizations of less than $15 billion, measured at the time of purchase. In choosing investments, the Adviser typically selects SMID cap equity securities that it believes offer superior return potential and may consider, among other factors, a company's valuation, projected future earnings, dividends, financing activity, growth potential, recent performance, and business strategy. To select securities for the Fund, the Adviser utilizes its proprietary research and valuation models that employ the factors described above to identify appropriate securities for the Fund.

The Adviser incorporates its Intrinsic Value Stewardship ("IVS") analytical model as part of its investment process to understand a company's attractiveness for possible investment. Intrinsic Value is derived from the Adviser's proprietary valuation process that considers, among other factors, a company's profitability, competition, growth rate and cost of capital. Stewardship reflects how a firm utilizes its capital and considers, among other factors, a company's profitability, cost of capital, and financing activities.

The Fund is actively managed and does not seek to replicate an index. The Adviser anticipates generally holding at least 150 different positions in the Fund's portfolio. Although the Fund generally holds at least 150 different positions across a broad spectrum of countries and sectors, it may at times take larger positions (greater than 5%) in certain holdings and/or sectors when its research and valuation models indicate that such investments are appropriate. As a result, the Fund will operate as a "non-diversified" fund, which means it can invest in fewer securities at any one time than a diversified fund.

The Fund may also invest in convertible securities, preferred stocks, rights and warrants, real estate investment trusts ("REITs") and American depositary receipts ("ADRs").

The Adviser will typically sell a company from the Fund's portfolio when the Adviser believes it no longer offers superior investment potential. The Adviser may also sell positions that have grown too large relative to the overall portfolio. The Fund's investments will be the responsibility of the Adviser and the Fund's sub-adviser, Tidal Investments, LLC.

Principal Risks

As with all funds, a shareholder is subject to the risk that his or her investment could lose money. The principal risks affecting shareholders' investments in the Fund are set forth below. An investment in the Fund is not a bank deposit and is not insured or guaranteed by the FDIC or any government agency. The principal risks described herein pertain to direct risks of making an investment in the Fund and/or risks of the issuers in which the Fund invests.

Equity Securities Risk. There is no guarantee that any favorable past performance of stocks selected for the Fund's portfolio will continue, and such stocks may experience significant declines in value over short and longer time periods. Companies that issue these stocks may experience lower than expected returns or may experience negative growth, as well as increased leverage, resulting in lower than expected or negative returns to Fund shareholders. Many factors can affect a stock's quality and performance, and the impact of these factors on a stock or its price can be difficult to predict. The Fund is subject to the risk that stock prices will fall over short or extended periods of time. Historically, the equity markets have moved in cycles, and the value of the Fund's stocks may fluctuate from day to day. Individual companies may report poor results or be negatively affected by industry and/or economic trends and developments and adversely affect the Fund's performance. The prices of stocks issued by such companies may suffer a decline in response. These factors contribute to price volatility, which is a principal risk of investing in the Fund.

Market and Geopolitical Risk. Market risk includes the possibility that the Fund's investments will decline in value because of a downturn in the stock market, reducing the value of individual companies' stocks regardless of the success or failure of an individual company's operations. The value of your investment in the Fund is based on the market prices of the securities the Fund holds. These prices change daily due to economic and other events that affect markets generally, as well as those that affect particular regions, countries, industries, companies or governments. The increasing interconnectivity between global economies and financial markets increases the likelihood that events or conditions in one region or financial market may adversely impact issuers in a different country, region or financial market. Securities in the Fund's portfolio may underperform due to inflation (or expectations for inflation), interest rates, global demand for particular products or resources, natural disasters, pandemics, epidemics, terrorism, regulatory events and governmental or quasi-governmental actions. The occurrence of global events similar to those in recent years, such as

terrorist attacks around the world, natural disasters, social and political discord or debt crises and downgrades, among others, may result in market volatility and may have long term effects on both the U.S. and global financial markets. There is a risk that you may lose money by investing in the Fund.

Mid and Small Capitalization Stock Risk. The value of a mid and small capitalization company stocks may be subject to more abrupt or erratic market movements than those of larger, more established companies or the market averages in general.

Foreign Securities Risk. Investments in the securities of non-U.S. issuers involve risks beyond those associated with investments in U.S. securities. These additional risks include greater market volatility, the availability of less reliable financial information, higher transactional and custody costs, taxation by foreign governments, decreased market liquidity and political instability. Some countries and regions have experienced security concerns, war or threats of war and aggression, terrorism, economic uncertainty, natural and environmental disasters and/or systemic market dislocations that have led, and in the future may lead, to increased short-term market volatility and may have adverse long-term effects on the U.S. and world economies and markets generally. Foreign issuers are often subject to less stringent requirements regarding accounting, auditing, financial reporting and record keeping than are U.S. issuers, and therefore not all material information will be available. Securities exchanges or foreign governments may adopt rules or regulations that may negatively impact the Fund's ability to invest in foreign securities or may prevent the Fund from repatriating its investments. Less developed securities markets are more likely to experience problems with the clearing and settling of trades, as well as the holding of securities by local banks, agents and depositories. The less developed a country's securities market is, the greater the likelihood of custody problems.

Depositary Receipts Risk. Depositary receipts are generally subject to the same risks as the foreign securities that they evidence or into which they may be converted, including the risk that there is often less publicly available information about foreign issuers, and the possibility of negative governmental actions and of political and social unrest.

REITs Risk. Investing in REITs involves unique risks. When the Fund invests in REITs, it is subject to risks generally associated with investing in real estate. A REIT's performance depends on the types and locations of the properties it owns, how well it manages those properties and cash flow. REITs may have limited financial resources, may trade less frequently and in limited volume, may engage in dilutive offerings, and may be subject to more abrupt or erratic price movements than the overall securities markets.

Foreign Currency Risk. Although the Fund will report its NAV and pay dividends in U.S. dollars, foreign securities often are purchased with and make any dividend and interest payments in foreign currencies. Therefore, the Fund's NAV could decline solely as a result of changes in the exchange rates between foreign currencies and the U.S. dollar, particularly if the Fund invests a significant percentage of its assets in foreign securities or other assets denominated in currencies not tightly pegged to the U.S.

Issuer Risk. The performance of the Fund depends on the performance of individual securities to which the Fund has exposure. Changes in the financial condition or credit rating of an issuer of those securities may cause the value of the securities to decline.

Risks of Investment Selection. The Fund's investment success depends on the skill of the Adviser in evaluating, selecting, and monitoring the portfolio assets. If the Adviser's conclusions about growth rates or securities values are incorrect, the Fund may not perform as anticipated.

Risk of Other Equity Securities. Other equity securities in which the Fund may invest include convertible securities, preferred securities, rights and warrants.

- *Convertible Securities*. Convertible securities are subject to the risks and price fluctuations of the underlying stock. They may be subject to the risk that the issuer will not be able to pay interest or dividends when due and their market value may change based on changes in the issuer's credit rating or the market's perception of the issuer's creditworthiness. Some convertible preferred stocks have a conversion or call feature that allows the

issuer to redeem the stock before the conversion date, which could diminish the potential for capital appreciation on the investment.

- *Preferred Securities*. The fixed dividend rate of preferred stocks may cause their prices to behave more like those of debt securities. If interest rates rise, the value of preferred stock having a fixed dividend rate tends to fall. Preferred stock generally ranks behind debt securities in claims for dividends and assets of the issuer in a liquidation or bankruptcy.

- *Rights and Warrants*. The price of a warrant does not necessarily move parallel to the price of the underlying security and is generally more volatile than that of the underlying security. Rights are similar to warrants, but normally have a shorter duration. The market for rights or warrants may be very limited and it may be difficult to sell them promptly at an acceptable price. Rights and warrants have no voting rights, receive no dividends and have no rights with respect to the assets of the issuer.

Non-Diversification Risk. The Fund is classified as "non-diversified" under the Investment Company Act of 1940, as amended. This means it has the ability to invest a relatively high percentage of its assets in the securities of a small number of issuers or in financial instruments with a single counterparty or a few counterparties. This may increase the Fund's volatility and increase the risk that the Fund's performance will decline based on the performance of a single issuer or the credit of a single counterparty and make the Fund more susceptible to risks associated with a single economic, political or regulatory occurrence than a diversified fund.

ETF Risks. The Fund is an exchange-traded fund, and, as a result of an ETF's structure, it is exposed to the following risks:

- *Authorized Participants, Market Makers, and Liquidity Providers Limitation Risk*. The Fund has a limited number of financial institutions that may act as Authorized Participants ("APs"). In addition, there may be a limited number of market makers and/or liquidity providers in the marketplace. To the extent either of the following events occur, Shares may trade at a material discount to NAV and possibly face delisting: (i) APs exit the business or otherwise become unable to process creation and/or redemption orders and no other APs step forward to perform these services, or (ii) market makers and/or liquidity providers exit the business or significantly reduce their business activities and no other entities step forward to perform their functions.

- *Cash Redemption Risk*. From time to time, the Fund may redeem Shares for cash or to otherwise include cash as part of its redemption proceeds. The Fund may be required to sell or unwind portfolio investments to obtain the cash needed to distribute redemption proceeds. This may cause the Fund to recognize a capital gain that it might not have recognized if it had made a redemption in-kind. As a result, the Fund may pay out higher annual capital gain distributions than if the in-kind redemption process was used.

- *Costs of Buying or Selling Shares*. Due to the costs of buying or selling Shares, including brokerage commissions imposed by brokers and bid/ask spreads, frequent trading of Shares may significantly reduce investment results and an investment in Shares may not be advisable for investors who anticipate regularly making small investments.

- *Shares May Trade at Prices Other Than NAV*. As with all ETFs, Shares may be bought and sold in the secondary market at market prices. Although it is expected that the market price of Shares will approximate the Fund's NAV, there may be times when the market price of Shares is more than the NAV intra-day (premium) or less than the NAV intra-day (discount) due to supply and demand of Shares or during periods of market volatility. This risk is heightened in times of market volatility and volatility in the Fund's portfolio holdings, periods of steep market declines, and periods when there is limited trading activity for Shares in the secondary market, in which case such premiums or discounts may be significant. If an investor purchases Shares at a time when the market price is at a premium to the NAV of the Shares or sells at a time when the market price is at a discount to the NAV of the Shares, then the investor may sustain losses that are in addition to any losses caused by a decrease in NAV.

- *Trading*. Although Shares are listed for trading on a national securities exchange, and may be traded on other U.S. exchanges, there can be no assurance that Shares will trade with any volume, or at all, on any stock

exchange. In stressed market conditions, the liquidity of Shares may begin to mirror the liquidity of the Fund's underlying portfolio holdings, which can be significantly less liquid than Fund Shares.

New Fund Risk. The Fund is a recently organized management investment company with no operating history. As a result, prospective investors do not have a track record or history on which to base their investment decisions.

Performance History

The Fund is new and does not have a full calendar year of performance history. In the future, performance information will be presented in this section of the Prospectus. Performance information will contain a bar chart and table that provide some indication of the risks of investing in the Fund by showing changes in the Fund's performance from year to year and by showing the Fund's average annual returns for certain time periods as compared to a broad measure of market performance. Investors should be aware that past performance before and after taxes is not necessarily an indication of how the Fund will perform in the future.

Updated performance information for the Fund, including its current NAV per share, is available by calling toll-free 833-356-0909.

Investment Adviser and Sub-Adviser

Applied Finance Advisors, LLC (the "Adviser") is the investment adviser to the Fund.

Tidal Investments, LLC (the "Sub-Adviser") is the sub-adviser to the Fund.

Portfolio Managers

Adviser's Portfolio Managers: Paul Blinn, Managing Member of the Adviser, and Rafael Resendes, Managing Member of the Adviser

Sub-Adviser's Portfolio Managers: Andy Hicks, Senior Vice President of Trading of the Sub-Adviser, and Qiao Duan, CFA, Portfolio Manager of the Sub-Adviser.

Purchase and Sale of Fund Shares

The Fund will issue (or redeem) shares to certain institutional investors (typically market makers or other broker-dealers) only in large blocks of at least ten thousand (10,000) shares known as "Creation Units." Creation Unit transactions are typically conducted in exchange for the deposit or delivery of in-kind securities and/or cash. Individual shares may only be purchased and sold on a national securities exchange through a broker-dealer. You can purchase and sell individual shares of the Fund throughout the trading day like any publicly traded security. The Fund's shares are listed on the NASDAQ (the "Exchange"). The price of the Fund's shares is based on market price, and because ETF shares trade at market prices rather than NAV, Fund shares may trade at a price greater than NAV (premium) or less than NAV (discount). When buying or selling shares through a broker, most investors will incur customary brokerage commissions and charges and you may pay some or all of the spread between the bid and the offered prices in the secondary market for shares. Except when aggregated in Creation Units, the Fund's shares are not redeemable securities. Recent information regarding the Fund, including its NAV, market price, premiums and discounts, and bid/ask spreads, is available on the Fund's website at www.appliedfinancefunds.com.

Tax Information

The Fund's distributions will be taxed as ordinary income or capital gain, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or an individual retirement account, in which case withdrawals from such arrangements generally will be taxed.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase shares of the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other financial intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.

ADDITIONAL INFORMATION ABOUT THE FUNDS' INVESTMENTS

Applied Finance Valuation Large Cap ETF

The Applied Finance Valuation Large Cap ETF (the "Fund") seeks long-term capital appreciation.

Under normal circumstances, the Applied Finance Valuation Large Cap ETF will invest at least 80% of its net assets in equity securities of large cap companies. The Fund defines large cap companies as companies with market capitalizations of $5 billion or more, measured at the time of purchase. In choosing investments, the Adviser typically selects large cap equity securities that it believes offer superior return potential and may consider, among other factors, a company's valuation, projected future earnings, dividends, financing activity, growth potential, recent performance, and business strategy. To select securities for the Fund, the Adviser utilizes its proprietary research and valuation models that employ the factors described above to identify appropriate securities for the Fund.

Applied Finance IVS US SMID ETF

The Applied Finance IVS US SMID ETF (the "Fund") seeks long term capital appreciation.

Under normal circumstances, the Applied Finance IVS US SMID ETF will invest at least 80% of its net assets in equity securities of US small to mid ("SMID") capitalization companies. The Fund defines SMID cap companies as companies with market capitalizations less than $15 billion, measured at the time of purchase

Applied Finance IVS International Large ETF

The Applied Finance IVS International Large ETF (the "Fund") seeks long term capital appreciation.

Under normal circumstances, the Applied Finance IVS International Large ETF will invest at least 80% of its net assets in equity securities of large-capitalization companies located in developed markets outside of North America, which generally include markets such as Australia, Austria, Belgium, Denmark, Finland, France, Germany, Hong Kong, Ireland, Italy, Japan, Luxembourg, the Netherlands, New Zealand, Norway, Singapore, Spain, Sweden, Switzerland, and the United Kingdom. The Fund defines large cap companies as companies with market capitalizations of $5 billion or more, measured at the time of purchase.

Applied Finance IVS International SMID ETF

The Applied Finance IVS International SMID ETF (the "Fund") seeks long term capital appreciation.

Under normal circumstances, the Applied Finance IVS International SMID ETF will invest at least 80% of its net assets in equity securities of small to mid ("SMID") capitalization companies located in developed markets outside of North America, which generally include markets such as Australia, Austria, Belgium, Denmark, Finland, France, Germany, Hong Kong, Ireland, Italy, Japan, Luxembourg, the Netherlands, New Zealand, Norway, Singapore, Spain, Sweden, Switzerland, and the United Kingdom. The Fund defines SMID cap companies as companies with market capitalizations of less than $15 billion, measured at the time of purchase.

In choosing investments for each Fund, the Adviser typically selects equity securities that qualify under each Fund's mandate that it believes offer superior return potential and may consider, among other factors, a company's valuation, projected future earnings, dividends, financing activity, growth potential, recent performance, and business strategy. To select securities for the Funds, the Adviser utilizes its proprietary research and valuation models that employ the factors described above to identify appropriate securities for each Fund.

Each Fund's investment objective may be changed by the Board of Trustees (the "Board") of ETF Opportunities Trust (the "Trust") without shareholder approval upon 60 days' written notice to shareholders.

Each Fund is classified as “non-diversified” under the Investment Company Act of 1940 (the “1940 Act”), which means that it may invest more of its assets in a smaller number of issuers than “diversified” funds.

ADDITIONAL INFORMATION ABOUT RISK

It is important that you closely review and understand the risks of investing in each Fund. The principal risks of investing in each Fund are described in the "Principal Risks" section in the applicable Fund Summary above. Each Fund's net asset value ("NAV") and investment return will fluctuate based upon changes in the value of its portfolio investments. You could lose money on your investment in a Fund, including the possible loss of your entire investment. Each Fund could underperform other investments, including other equity, thematic, or income-oriented strategies. There is no guarantee that either Fund will achieve its investment objective. The principal risks described herein pertain to direct risks of making an investment in the Fund and/or risks of the issuers in which the Fund invests.

An investment in a Fund is not a deposit of a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency.

Other Risks for the Funds

Cyber Security Risk. Failures or breaches of the electronic systems of the Funds, the Adviser, the Sub-Adviser and/or the Funds' other service providers, market makers, Authorized Participants or the issuers of securities in which the Funds invest have the ability to cause disruptions and negatively impact the Funds' business operations, potentially resulting in financial losses to the Funds and their shareholders. While the Funds have established business continuity plans and risk management systems seeking to address system breaches or failures, there are inherent limitations in such plans and systems. Furthermore, the Funds cannot control the cyber security plans and systems of the Funds' service providers, market makers, Authorized Participants or issuers of securities in which the Funds invest.

Temporary Investments

To respond to adverse market, economic, political or other conditions, the Funds may invest 100% of their total assets, without limitation, in high-quality short-term debt securities. These short-term debt securities include: money market mutual funds, treasury bills, commercial paper, certificates of deposit, bankers' acceptances, U.S. Government securities and repurchase agreements. While a Fund is in a defensive position, the opportunity to achieve its investment objective will be limited. The Funds may also invest a substantial portion of their assets in such instruments at any time to maintain liquidity or pending selection of investments in accordance with its policies. When a Fund takes such a position, it may not achieve its investment objective. It is expected that such a defensive change will be rare.

MANAGEMENT

The Investment Adviser. Applied Finance Advisors, LLC (the "Adviser"), 17806 IH 10, Suite 300, San Antonio, Texas 78257, is the investment adviser for the Funds. The Adviser is registered as an investment adviser under the Investment Advisers Act of 1940, as amended. The Adviser is a limited liability company and was organized in Delaware.

Under the Investment Advisory Agreement between the Adviser and the Trust, on behalf of the Funds (the "Investment Advisory Agreement"), the Adviser is responsible for the day-to-day management of the Funds' investments. The Adviser also: (i) furnishes the Funds with office space and certain administrative services; (ii) provides guidance and policy direction in connection with its daily management of the Funds' assets, subject to the authority of the Board; and (iii) is responsible for oversight of the Sub-Adviser. For its services, the Adviser is entitled to receive an annual management fee calculated daily and payable monthly, as a percentage of the Funds' annualized daily net assets, at the rate of:

Applied Finance Valuation Large Cap ETF	0.49%
Applied Finance IVS US SMID ETF	0.59%
Applied Finance IVS International Large ETF	0.65%
Applied Finance IVS International SMID ETF	0.75%

Under the Investment Advisory Agreement, the Adviser has agreed, at its own expense and without reimbursement from the Funds, to pay all expenses of the Funds, except for: the fee paid to the Adviser pursuant to the Investment Advisory Agreement, interest expenses, taxes, acquired fund fees and expenses, brokerage commissions and any other portfolio transaction related expenses and fees arising out of transactions effected on behalf of the Funds, credit facility fees and expenses, including interest expenses, and litigation and indemnification expenses and other extraordinary expenses not incurred in the ordinary course of the Funds' business.

Manager-of-Managers Structure

The Adviser and the Trust have been granted an exemptive order from the SEC that will allow the Funds to operate in a "manager of managers" structure whereby the Adviser, as the Funds' investment adviser, can appoint and replace both wholly owned and unaffiliated sub-advisers, and enter into, amend and terminate sub-advisory agreements with such sub-advisers, each subject to Board approval but without obtaining prior shareholder approval (the "Manager of Managers Structure"). The Funds will, however, inform shareholders of the hiring of any new sub-adviser within 90 days after the hiring. The SEC exemptive order will provide the Funds with greater efficiency and without incurring the expenses and delays associated with obtaining shareholder approval of sub-advisory agreements with such sub-advisers.

The use of the Manager of Managers Structure with respect to the Funds is subject to certain conditions that are set forth in the SEC exemptive order. Under the Manager of Managers Structure, the Adviser will have the ultimate responsibility, subject to oversight by the Board, to oversee the sub-advisers and recommend their hiring, termination, and replacement. The Adviser will also, subject to the review and approval of the Board: set each Fund's overall investment strategy; evaluate, select and recommend sub-advisers to manage all or a portion of each Fund's assets; and implement procedures reasonably designed to ensure that each sub-adviser complies with a Fund's investment objective, policies and restrictions. Subject to the review of the Board, the Adviser will allocate and, when appropriate, reallocate each Fund's assets among sub-advisers and monitor and evaluate the sub-advisers' performance.

The Sub-Adviser. The Adviser has retained Tidal Investments, LLC (the "Sub-Adviser") to serve as sub-adviser for the Funds. The Sub-Adviser is responsible for handling the day-to-day management of the Funds' trading process, which includes Creation and/or Redemption basket processing. The Sub-Adviser does not select investments for the Funds' portfolio. The Sub-Adviser, which has its principal office at 898 N. Broadway, Suite 2, Massapequa, New York 11758, was formed in 2012 and provides investment advisory, investment research, and portfolio construction services to ETF clients. For its services, the Sub-Adviser is paid a sub-advisory fee by the Adviser. See the Funds' statement of additional information ("SAI") for a description of the Sub-Adviser's fee.

A discussion regarding the basis for the Board approving the Investment Advisory Agreement and Sub-Advisory Agreement for the Applied Finance Valuation Large Cap ETF is available in the Fund's report filed on Form N-CSR for the

period ended June 30, 2025 and the discussion regarding the basis for the Board approving the Investment Advisory Agreement and Sub-Advisory Agreement for the Applied Finance IVS US SMID ETF, Applied Finance IVS International Large ETF and Applied Finance IVS International SMID ETF is available in the Funds' report filed on Form N-CSR for the period ended December 31, 2025.

The Portfolio Managers

All Funds

Adviser Portfolio Manager - Mr. Paul Blinn, portfolio manager, is jointly responsible for the day-to-day management of each Fund's portfolio, including stock selection, investment monitoring and trading. Mr. Blinn joined the Adviser as a founding member in 2006 and has served as principal of the Adviser since that time. Mr. Blinn has over 25 years of capital market experience. Mr. Blinn's background includes experience as an Executive Director at UBS, a global financial firm, and its predecessor entities from 1985 to 2000, as a Vice President of a leading option market maker, and a Senior Equity derivatives trader for a hedge fund from 2000 to 2005. Mr. Blinn graduated with honors from The University of Texas at Austin with a BBA in Finance.

Adviser Portfolio Manager - Mr. Rafael Resendes, portfolio manager, is jointly responsible for the day-to-day management of each Fund's portfolio, including stock selection and investment monitoring. Mr. Resendes was a founding member of the Adviser in 2006 and has served as a principal of the Adviser since that time. Mr. Resendes was also a co-founder of The Applied Finance Group, Ltd. in 1995 and he has served as a principal of that entity since that time. Mr. Resendes has over 25 years of capital market experience and has spent the majority of those years in the areas of equity research and valuation. Mr. Resendes was an adjunct professor of finance at DePaul University in Chicago from 1998 to 1999. He graduated Phi Beta Kappa from The University of California, Berkeley with a BS in Finance and received his MBA from the University of Chicago.

Applied Finance Valuation Large Cap ETF only

Sub-Adviser Portfolio Manager – Michael Venuto is a portfolio manager of the Fund. Mr. Venuto is Co-Founder and Chief Investment Officer of the Sub-Adviser. He is an ETF industry veteran with over two decades of experience in the design and implementation of ETF-based investment strategies. Mr. Venuto is the lead portfolio manager for the first actively managed ETF focused on Blockchain (BLOK) companies filed in the US. Previously, he was Head of Investments at Global X Funds where he provided portfolio optimization services to institutional clients. Before that, he was Senior Vice President at Horizon Kinetics where his responsibilities included new business development, investment strategy, Fintech private equity and strategic initiatives. In 2014, Mr. Venuto was chosen as one the ETF.COM All Stars for his research and is often quoted as an ETF expert in publications such as Reuters and Barron's.

Sub-Adviser Portfolio Manager – Charles A. Ragauss, CFA is a portfolio manager of the Fund. Mr. Ragauss is Portfolio Manager and Head of Trading of the Sub-Adviser. He is responsible for leading the portfolio management trading team, trading the securities held in the ETFs advised by the Sub-Adviser, as well as the SMAs managed by the Sub-Adviser. Prior to joining the Sub-Adviser, he was Chief Operating Officer and Head of Portfolio Management at CS at Investment Advisory, L.P., doing business as Exponential ETFs ("Exponential ETFs") since April 2016. He was responsible for expanding and improving that firm's product offerings as well as managing the day-to- day operations of client portfolios. Prior to Exponential ETFs, Mr. Ragauss was Assistant Vice President at Huntington National Bank, where he was Product Manager for the Huntington Funds and Huntington Strategy Share ETFs, a combined fund complex of almost $4 billion in asset under management. At Huntington, he led ETF development, bringing to market some of the first actively managed ETFs. Mr. Ragauss attended Grand Valley State University where he received his Bachelor of Business Administration in Finance and International Business, as well as a minor in French. He holds the CFA designation.

Applied Finance IVS US SMID ETF, Applied Finance IVS International Large ETF and Applied Finance International SMID ETF only

Sub-Adviser Portfolio Manager- Mr. Andy Hicks, portfolio manager, is jointly responsible for the Sub-Adviser's management functions for the Funds. Mr. Hicks serves as SVP of Trading for the Adviser, having joined the Adviser in 2025. Mr. Hicks previously served as Director of ETF Portfolio Management, Trading, and Research at SS&C ALPS

Advisors for over ten years. Prior to SS&C ALPS Advisors, Mr. Hicks held roles as a Senior Equity Trader and Research Analyst with Virtus Investment Partners, specializing in equity and ETF trading, and a head equity trader for SCM Advisors. With over 20 years of experience, Mr. Hicks holds an accounting/ finance degree from Miami University (Ohio) and an MBA in Finance from the University of Colorado – Denver.

*Sub-Adviser Portfolio Manage*r- Ms. Qiao Duan, portfolio manager, is jointly responsible for the Sub-Adviser's management functions for the Funds. Ms. Duan serves as Portfolio Manager at Tidal, having joined the firm in October 2020. From February 2017 to October 2020, she was an execution Portfolio Manager at Exponential ETFs, where she managed research and analysis relating to all Exponential ETF strategies. Ms. Duan previously served as a portfolio manager for the Exponential ETFs from their inception in May 2019 until October 2020. Ms. Duan received a Master of Science in Quantitative Finance and Risk Management from the University of Michigan in 2016 and a Bachelor of Science in Mathematics and Applied Mathematics from Xiamen University in 2014. She holds the CFA designation.
The SAI provides additional information about the portfolio manager's compensation, other accounts managed by the portfolio managers, and the portfolio managers' ownership in the Funds.

DISTRIBUTION (12B-1) PLAN

Applied Finance IVS US SMID ETF, Applied Finance IVS International Large ETF and Applied Finance International SMID ETF only

The Board has adopted a Distribution and Shareholder Service Plan (the "Plan") pursuant to Rule 12b-1 under the 1940 Act. In accordance with the Plan, the Funds are authorized to pay an amount up to 0.25% of its average daily net assets each year for certain distribution-related activities and shareholder services.

No Rule 12b-1 fees are currently paid by the Funds, and there are no current plans to impose these fees. However, in the event Rule 12b-1 fees are charged in the future, because the fees are paid out of each Fund's assets, over time these fees will increase the cost of your investment and may cost you more than certain other types of sales charges.

The Trust

Each Fund is a series of the ETF Opportunities Trust, an open-end management investment company organized as a Delaware statutory trust on March 18, 2019. The Board supervises the operations of the Funds according to applicable state and federal law, and the Board is responsible for the overall management of the Fund's business affairs.

Portfolio Holdings

A description of the Funds' policies and procedures with respect to the disclosure of their portfolio securities is available in the SAI. Complete holdings are published on the Funds' website on a daily basis. Please visit the Funds' website at www.appliedfinancefunds.com. In addition, the Fund's complete holdings (as of the dates of such reports) are available in reports on Form N-PORT and Form N-CSR filed with the SEC.

HOW TO BUY AND SELL SHARES

Most investors will buy and sell shares of the Funds through broker-dealers at market prices. Shares of the Funds are listed for trading on the Exchange and on the secondary market during the trading day and can be bought and sold throughout the trading day like other shares of publicly traded securities. Shares of the Funds are traded under the below listed trading symbols:

Fund	Trading Symbol
Applied Finance Valuation Large Cap ETF	VSLU
Applied Finance IVS US SMID ETF	IVSS
Applied Finance IVS International Large ETF	IVSI
Applied Finance IVS International SMID ETF	IVSX

Shares may only be purchased and sold on the secondary market when the Exchange is open for trading.

When buying or selling shares through a broker, you will incur customary brokerage commissions and charges, and you may pay some or all of the spread between the bid and the offered price in the secondary market on each leg of a round trip (purchase and sale) transaction.

The NAV of the Funds' shares is calculated at the close of regular trading on the Exchange, generally 4:00 p.m. New York time, on each day the Exchange is open. The NAV of the Funds' Shares is determined by dividing the total value of the Funds' portfolio investments and other assets, less any liabilities, by the total number of Shares outstanding of the Funds.

In calculating its NAV, a Fund generally values its assets on the basis of market quotations, last sale prices, or estimates of value furnished by a pricing service or brokers who make markets in such instruments.

Fair value pricing is used by a Fund when market quotations are not readily available or are deemed to be unreliable or inaccurate based on factors such as evidence of a thin market in the security or a significant event occurring after the close of the market but before the time as of which a Fund's NAV is calculated. When fair-value pricing is employed, the prices of securities used by a Fund to calculate its NAV may differ from quoted or published prices for the same securities.

APs may acquire shares directly from a Fund, and APs may tender their shares for redemption directly to the Fund, at NAV per share only in large blocks, or Creation Units, as noted in the table below:

FUND	Creation Units
Applied Finance Valuation Large Cap ETF	25,000
Applied Finance IVS US SMID ETF	25,000
Applied Finance IVS International Large ETF	25,000
Applied Finance IVS International SMID ETF	10,000

Purchases and redemptions directly with the Fund must follow the Fund's procedures, which are described in the SAI.

Under normal circumstances, a Fund will pay out redemption proceeds to a redeeming AP within one (1) day (that is "T+1") after the AP's redemption request is received, in accordance with the process set forth in the Fund's SAI and in the agreement between the AP and the Fund's distributor. However, a Fund reserves the right, including under stressed market conditions, to take up to seven (7) days after the receipt of a redemption request to pay an AP, all as permitted by the 1940 Act. Each Fund anticipates regularly meeting redemption requests primarily through in-kind redemptions. However, each Fund reserves the right to pay all or portion of the redemption proceeds to an AP in cash. Cash used for

redemptions will be raised from the sale of portfolio assets or may come from existing holdings of cash or cash equivalents.

Each Fund may liquidate and terminate at any time without shareholder approval.

Book Entry

Shares are held in book entry form, which means that no stock certificates are issued. The Depository Trust Company ("DTC") or its nominee is the record owner of all outstanding shares and is recognized as the owner of all shares for all purposes.

Investors owning shares are beneficial owners as shown on the records of DTC or its participants. DTC serves as the securities depository for all shares. Participants in DTC include securities brokers and dealers, banks, trust companies, clearing corporations and other institutions that directly or indirectly maintain a custodial relationship with DTC. As a beneficial owner of shares, you are not entitled to receive physical delivery of stock certificates or to have shares registered in your name, and you are not considered a registered owner of shares. Therefore, to exercise any right as an owner of shares, you must rely upon the procedures of DTC and its participants. These procedures are the same as those that apply to any other securities that you hold in book entry or "street name" form.

FREQUENT PURCHASES AND REDEMPTIONS OF FUND SHARES

Shares can only be purchased and redeemed directly from a Fund in Creation Units by APs, and the vast majority of trading in shares occurs on the secondary market. Because the secondary market trades do not directly involve a Fund, it is unlikely those trades would cause the harmful effects of market timing, including dilution, disruption of portfolio management, increases in a Fund's trading costs and the realization of capital gains. With regard to the purchase or redemption of Creation Units directly with a Fund, to the extent effected in-kind (*i.e.*, for securities), those trades do not cause the harmful effects that may result from frequent cash trades. To the extent trades are effected in whole or in part in cash, those trades could result in dilution to a Fund and increased transaction costs, which could negatively impact a Fund's ability to achieve its investment objectives. However, direct trading by APs is critical to ensuring that shares trade at or close to NAV. Each Fund also employ fair valuation pricing to minimize potential dilution from market timing. In addition, each Fund imposes transaction fees on purchases and redemptions of shares to cover the custodial and other costs incurred by a Fund in effecting trades. These fees increase if an investor substitutes cash in part or in whole for securities, reflecting the fact that a Fund's trading costs increase in those circumstances. Given this structure, the Trust has determined that it is not necessary to adopt policies and procedures to detect and deter market timing of the Shares.

DIVIDENDS, OTHER DISTRIBUTIONS AND TAXES

Shares are traded throughout the day in the secondary market on a national securities exchange on an intra-day basis and are created and redeemed in-kind and/or for cash in Creation Units at each day's next calculated NAV. In-kind arrangements are designed to protect ongoing shareholders from the adverse effects on a Fund's portfolio that could arise from frequent cash redemption transactions. Each Fund expects to typically satisfy redemptions in-kind. However, if a Fund satisfies a redemption in cash this may result in a Fund selling portfolio securities to obtain cash to meet net Fund redemptions which can have an adverse tax impact on taxable shareholders. These sales may generate taxable gains for the ongoing shareholders of a Fund, whereas the shares' in-kind redemption mechanism generally will not lead to a tax event for a Fund or its ongoing shareholders.

Ordinarily, dividends from net investment income, if any, are declared and paid annually by each Fund. Each Fund will distribute its net realized capital gains, if any, to shareholders annually. Each Fund may also pay a special distribution at the end of a calendar year to comply with U.S. federal income tax requirements.

No dividend reinvestment service is provided by the Funds. Broker-dealers may make available the DTC book-entry Dividend Reinvestment Service for use by beneficial owners of a Fund for reinvestment of their dividend distributions. Beneficial owners should contact their broker to determine the availability and costs of the service and the details of participation therein. Brokers may require beneficial owners to adhere to specific procedures and timetables. If this service is available and used, dividend distributions of both income and realized gains will be automatically reinvested in additional whole shares of a Fund purchased in the secondary market.

Taxes

As with any investment, you should consider how your investment in shares will be taxed. The tax information in this Prospectus is provided as general information. You should consult your own tax professional about the tax consequences of an investment in shares.

Unless your investment in Fund shares is made through a tax-exempt entity or tax-deferred account, such as an individual retirement account, you need to be aware of the possible tax consequences when:

- The Fund makes distributions,
- You sell your shares listed on the Exchange, and
- You purchase or redeem Creation Units.

Taxes on Distributions

Distributions from a Fund's net investment income, including net short-term capital gains, if any, are taxable to you as ordinary income, except that a Fund's dividends attributable to its "qualified dividend income" (*i.e.*, dividends received on stock of most U.S. and certain foreign corporations) with respect to which the Fund satisfies certain holding period and other requirements, if any, generally are subject to U.S. federal income tax for non-corporate U.S. shareholders who satisfy those requirements with respect to their shares at the rate for net capital gain. A part of a Fund's dividends also may be eligible for the dividends-received deduction allowed to U.S. corporations (the eligible portion may not exceed the aggregate dividends a Fund receives from domestic corporations subject to U.S. federal income tax (excluding REITs) and excludes dividends from foreign corporations) subject to similar requirements. However, dividends a U.S. corporate shareholder deducts pursuant to that deduction are subject indirectly to the U.S. federal alternative minimum tax.

In general, distributions received from a Fund are subject to U.S. federal income tax when they are paid, whether taken in cash or reinvested in the Fund (if that option is available). Distributions reinvested in additional shares through the means of a dividend reinvestment service, if available, will be taxable to shareholders acquiring the additional shares to the same extent as if such distributions had been received in cash. Distributions of net long-term capital gains, if any, in excess of net short-term capital losses are taxable as long-term capital gains, regardless of how long you have held the shares in the Fund.

Distributions in excess of the Fund's current and accumulated earnings and profits are treated as a tax-free return of capital to the extent of your basis in the shares and as capital gain thereafter. A distribution will reduce the Fund's NAV

per share and may be taxable to you as ordinary income or capital gain (as described above) even though, from an investment standpoint, the distribution may constitute a return of capital.

Each Fund is required to backup withhold 24% of your distributions and redemption proceeds if you have not provided the Fund with a correct taxpayer identification number (which generally is a Social Security number for individuals) in the required manner and in certain other situations.

Taxes on Exchange-Listed Share Sales

Any capital gain or loss realized upon a sale of shares is generally treated as long-term capital gain or loss if the shares have been held for more than one year and as short-term capital gain or loss if the shares have been held for one year or less. The ability to deduct capital losses from sales of shares may be limited.

Taxes on Purchase and Redemption of Creation Units

An Authorized Participant who exchanges securities for Creation Units generally will recognize a taxable gain or a loss equal to the difference between the market value of the Creation Units at the time of the exchange and the sum of the exchanger's aggregate tax basis in the securities surrendered plus any cash it pays. An Authorized Participant who exchanges Creation Units for securities will generally recognize a taxable gain or loss equal to the difference between the exchanger's tax basis in the Creation Units and the sum of the aggregate market value of the securities received plus any cash received. The Internal Revenue Service ("IRS"), however, may assert that a loss realized upon an exchange of securities for Creation Units cannot be deducted currently under the rules governing "wash sales" or for other reasons. Persons exchanging securities should consult their own tax advisers with respect to whether the wash sale rules apply and when a loss might not be deductible.

Any capital gain or loss realized upon redemption of Creation Units is generally treated as long-term capital gain or loss if the shares have been held for more than one year and as short-term capital gain or loss if the shares have been held for one year or less.

If you purchase or redeem Creation Units, you will be sent a confirmation statement showing how many shares you purchased or sold and at what price. See "Taxes" in the SAI for a description of the requirement regarding basis determination methods applicable to share redemptions and the Fund's obligation to report basis information to the IRS.

At the time that this prospectus is being prepared, various administrative and legislative changes to the U.S. federal income tax laws are under consideration, but it is not possible at this time to determine whether any of these changes will take place or what the changes might entail.

The foregoing discussion summarizes some of the possible consequences under current U.S. federal income tax law of an investment in each Fund. It is not a substitute for personal tax advice. Consult your personal tax adviser about the potential tax consequences of an investment in the shares under all applicable tax laws. See "Taxes" in the SAI for more information.

FUND SERVICE PROVIDERS

Commonwealth Fund Services, Inc. (the "Administrator") serves as administrator to each Fund. The firm is primarily in the business of providing administrative services to retail and institutional mutual funds and exchange-traded funds.

Foreside Fund Services, LLC (the "Distributor") serves as the distributor of Creation Units for all the Funds on an agency basis. The Distributor does not maintain a secondary market in shares.

Practus, LLP serves as legal counsel to the Trust and the Funds.

Cohen & Company, Ltd. serves as the Funds' independent registered public accounting firm. The independent registered public accounting firm is responsible for auditing the annual financial statements of the Funds.

Applied Finance Valuation Large Cap ETF and Applied Finance IVS US SMID ETF

Citi Fund Services Ohio, Inc. ("Citi") serves as transfer agent and fund accountant to the Applied Finance Valuation Large Cap ETF and Applied Finance IVS US SMID ETF, and it provides certain other services to the Funds not provided by the Administrator. Citi is primarily in the business of providing administrative and fund accounting services to retail and institutional exchange traded funds and mutual funds.

Citibank, N.A., serves as the Applied Finance Valuation Large Cap ETF's and Applied Finance IVS US SMID ETF's custodian and transfer agent.

Applied Finance IVS International Large ETF and Applied Finance International SMID EFT

US Bank serves as transfer agent and fund accountant to the Applied Finance International Large ETF and the Applied Finance International SMID ETF, and it provides certain other services to the Funds not provided by the Administrator.

US Bank serves as custodian to the Applied Finance International Large ETF and the Applied Finance International SMID ETF.

OTHER INFORMATION

Continuous Offering

The method by which Creation Units of shares are created and traded may raise certain issues under applicable securities laws. Because new Creation Units of shares are issued and sold by the Fund on an ongoing basis, a "distribution," as such term is used in the Securities Act of 1933, as amended (the "Securities Act"), may occur at any point. Broker-dealers and other persons are cautioned that some activities on their part may, depending on the circumstances, result in their being deemed participants in a distribution in a manner which could render them statutory underwriters and subject them to the prospectus delivery requirement and liability provisions of the Securities Act.

For example, a broker-dealer firm or its client may be deemed a statutory underwriter if it takes Creation Units after placing an order with the Distributor, breaks them down into constituent shares and sells the shares directly to customers or if it chooses to couple the creation of a supply of new shares with an active selling effort involving solicitation of secondary market demand for shares. A determination of whether one is an underwriter for purposes of the Securities Act must take into account all the facts and circumstances pertaining to the activities of the broker-dealer or its client in the particular case, and the examples mentioned above should not be considered a complete description of all the activities that could lead to a characterization as an underwriter.

Broker-dealer firms should also note that dealers who are not "underwriters" but are effecting transactions in shares, whether or not participating in the distribution of shares, are generally required to deliver a prospectus. This is because the prospectus delivery exemption in Section 4(3) of the Securities Act is not available in respect of such transactions as a result of Section 24(d) of the 1940 Act. As a result, broker-dealer firms should note that dealers who are not "underwriters" but are participating in a distribution (as contrasted with engaging in ordinary secondary market transactions) and thus dealing with the shares that are part of an overallotment within the meaning of Section 4(3)(C) of the Securities Act, will be unable to take advantage of the prospectus delivery exemption provided by Section 4(3) of the Securities Act. For delivery of prospectuses to exchange members, the prospectus delivery mechanism of Rule 153 under the Securities Act is only available with respect to transactions on a national exchange.

Dealers effecting transactions in the shares, whether or not participating in this distribution, are generally required to deliver a Prospectus. This is in addition to any obligation of dealers to deliver a Prospectus when acting as underwriters.

Premium/Discount Information

When available, information regarding how often the Shares of the Fund traded on the Exchange at a price above (*i.e.* at a premium) or below (*i.e.* at a discount) the NAV of the Fund will be available at www.appliedfinancefunds.com.

INDEX LICENSE DISCLOSURE

The Funds' are not sponsored, endorsed, sold or promoted by Morningstar, Inc., or any of its affiliated companies (all such entities, collectively, "Morningstar Entities"). The Morningstar Entities make no representation or warranty, express or implied, to the owners of the Funds or any member of the public regarding the advisability of investing in equities generally or in the Funds in particular or the ability of the Morningstar Indexes to track general equity market performance. The Morningstar Entities' only relationship to the Adviser is the licensing of certain service marks and service names of Morningstar and of the Morningstar Indexes, which is determined, composed and calculated by the Morningstar Entities without regard to the Adviser or the Funds. The Morningstar Entities have no obligation to take the needs of the Adviser or the shareholders of the Funds into consideration in determining, composing or calculating the Morningstar Indexes. The Morningstar Entities are not responsible for and has not participated in the determination of the prices and amount of the Funds or the timing of the issuance or sale of the Funds or in the determination or calculation of the equation by which the Funds are converted into cash. The Morningstar Entities have no obligation or liability in connection with the administration, marketing or trading of the Funds.

THE MORNINGSTAR ENTITIES DO NOT GUARANTEE THE ACCURACY AND/ OR THE COMPLETENESS OF THE MORNINGSTAR INDEXES OR ANY DATA INCLUDED THEREIN AND THE MORNINGSTAR ENTITIES SHALL HAVE NO LIABILITY FOR ANY ERRORS, OMISSIONS, OR INTERRUPTIONS THEREIN. THE MORNINGSTAR ENTITIES MAKE NO WARRANTY, EXPRESS OR IMPLIED, AS TO RESULTS TO BE OBTAINED BY THE ADVISER, SHAREHOLDERS OF THE FUNDS, OR ANY OTHER PERSON OR ENTITY FROM THE USE OF THE MORNINGSTAR INDEXES OR ANY DATA INCLUDED THEREIN. THE MORNINGSTAR ENTITIES MAKE NO EXPRESS OR IMPLIED WARRANTIES, AND EXPRESSLY DISCLAIMS ALL WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR USE WITH RESPECT TO THE MORNINGSTAR INDEXES OR ANY DATA INCLUDED THEREIN. WITHOUT LIMITING ANY OF THE FOREGOING, IN NO EVENT SHALL THE MORNINGSTAR ENTITIES HAVE ANY LIABILITY FOR ANY SPECIAL, PUNITIVE, INDIRECT, OR CONSEQUENTIAL DAMAGES (INCLUDING LOST PROFITS), EVEN IF NOTIFIED OF THE POSSIBILITY OF SUCH DAMAGES.

FINANCIAL HIGHLIGHTS

The following table is intended to help you better understand the financial performance of the Funds since their inception. Certain information reflects financial results for a single share of the Funds. The total return in the table represents the rate you would have earned (or lost) on an investment in the Funds, assuming reinvestment of all dividends and distributions. The information has been audited by Cohen & Company, Ltd., the independent registered public accounting firm of the Fund, whose report, along with the Funds' financial statements, is included in the Funds' filing on Form N-CSR. The financial statements are available from the Funds upon request without charge.
